

IEEE ComSoc Techtalk

Commemorating the 100th birthday of Claude Shannon

Date:

11th May 2016

Time:

2:00pm to 5:00pm

Location:

Training Hall
C-DOT Campus
Bengaluru, India

All are Welcome.

*For details, please contact:
trgb@cdot.in*

It's impossible to overstate the legacy of Claude Shannon. The paper he wrote for his master's thesis is the foundation of electronic digital computing. He regularly brushed shoulders with Einstein and Alan Turing, and his work in electronic communications and signal processing--the stuff that earned him the moniker "the father of information theory"--led to revolutionary changes in the storage and transmission of data.*

C-DOT, in association with IEEE ComSoc Chapter, wishes to celebrate the 100th Birthday of father of modern digital communication by having TechTalk in his honour.

Guest Speakers are:

- Prof. Himanshu Tyagi, IISc
- Dr. Dilip Krishnaswamy, IBM
