INSTITUTE OF
TECHNOLOGY

Two-Day Workshop on

Research Methodologies

8th & 9th May, 2017

In association with

IEEE
Advancing Technology
for Humanity

IEEE ComSoc
IEEE Communications Society

Organized By
Department of
Telecommunication Engineering

About the Workshop

This workshop is intended to mainly guide the prospect authors, researchers, faculty and students on technical writing. Its main purpose is to motivate the research and higher education communities to take up research and inculcate the research aptitude in them. In this workshop, a team of experts will train the participants on research methodologies in scientific and engineering domains.

The main focus will be on different methods followed in research and how to publish the results in appropriate platforms such as journals and conferences. In addition to the above the experts will also provide some valuable ideas on research methodology tools. The experts for this workshop will be from both IEEE and VTU. At the end of the workshop the participants are expected to have all the basic ideas on research methodologies including writing technical papers.

About the Institute

Established in 2000, CMR Institute of Technology imparts quality and pragmatic education in engineering and management to help students hone their analytical abilities and develop their creative thinking. CMRIT meets the rapidly growing need for technology professionals by nurturing young minds in an innovative and progressive learning environment.

CMRIT cherishes dream of Sri Chikka Muniyappa Reddy. We are committed to imparting technical education to catalyze the growth and development of the country and society at large. With excellent infrastructure and experienced faculty, CMRIT is the preferred destination for technocrats and managers who wish to shape the future. CMRIT has recently been granted **A+** status by NAAC

About the Department

The Department of Telecommunication Engineering was established in the year 2000. Department of TCE has both UG and PG programs. The Department has well qualified faculty having experience in both teaching and industry.

The Department provides comprehensive education that prepares students to contribute effectively to profession and society in the field of Telecommunication and also establishes a strong and wide base linkage with industries, R&D organizations and academic institutions.
